Thank you for your interest in Microsoft Dynamics 365 Business Central. Our estimates leverage Clarity, our platform that taps into years of experience of Business Central implementations, to bring you the depth of detail contained within this report. We are pleased to deliver this report, which contains:

- **Implementation Cost Estimates** – An initial indication of the potential lower and upper costs of implementing Business Central in your organisation.
- **Software Licensing Estimates** – Breakdown of the type, volume and monthly costs of the licences you are likely to require.
- **Required Modules** – list of the Business Central modules that you would be likely to require based on your business needs.
- **Next Steps** – Information on what to do next to help you on your ERP system selection journey.

Our Mission and Methodology

Helping SMBs grow profitably is at the heart of what we do. Our mission is to implement Microsoft Dynamics 365 solutions that increase efficiency and enable impactful business transformation. Through our Inspirational Clarity methodology, we improve your customer experience and help you realise your competitive advantage.

Who We Are

Cloud9 is an award-winning, accredited Microsoft Dynamics 365 solutions partner for business applications, specialising in Customer Relationship Management (CRM), Enterprise Resource Management (ERP) and Power Platform. We work exclusively with small and medium-sized businesses, helping them to grow profitably and expand their CRM and ERP capability.

Microsoft Dynamics 365 Business Central

Microsoft Dynamics 365 Business Central is the first comprehensive business management solution leveraging Microsoft Copilot to enhance productivity, spark creativity, and improve business performance with next-generation AI. Also, Business Central seamlessly integrates with Microsoft 365, including Outlook, Excel, and Teams, ensuring users can access critical information without switching between applications.

What Our Clients Say

"Cloud9 helped us to deliver a successful D365 implementation which has added huge value to our business. Their understanding of our objectives, a tried and tested approach, lots of experience and insight were all very beneficial..."

James Rudolf, COO
Acquis Insurance Management

"Following the completion of this project, the feedback from the users matches my own opinion. This has been a brilliantly managed and delivered project, and I can think of nothing that could have been improved upon."

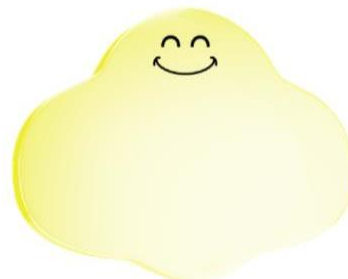

Trevor Wright, Head of IT
Emico

What Our Partners Say

"Cloud9 Insight are a partner I know I can depend on. Their passion for the products, industry expertise and transparency make them the perfect advocate for P2P (Partner to Partner). Plus, it helps they are just a great bunch of people"

Microsoft

"Atech's customer in grounds maintenance sought to consolidate various applications into Dynamics365. Partnering with Cloud9 Insight, Atech facilitated a successful engagement, leading to workshops and a finalized statement of work. The customer appreciated Cloud9's customer-centric approach. Atech, valuing their collaboration, highly recommends Cloud9 to other clients."

James MacCallum,
Atech Cloud

Similar Implementation Costs

Based on similar client projects, the values below are an indication of the upper and lower cost estimates for the implementation of Microsoft Dynamics 365 software.

Make an Informed Decision with a Detailed Proposal. The estimations in this document are based solely on the limited information you have provided us with so far and therefore are only indicative.

Please contact us to undertake a full Requirements Analysis of your business to generate a detailed Proposal, which will include a comprehensive Dynamics 365 Fit-Gap Analysis against your requirements, detailed Implementation and Software Licensing Costs and Options, plus recommended Project Phasing.
